Dear Educators,

We extend an invitation again this year for your class to enjoy a field trip to The Apple Works! Children will learn more about the science and joy of growing apples while enjoying the beauty of our orchard. We have 70 different varieties and 9000 trees producing apples.

Primary Field Trip Tour (90 minutes: Offered August, September, and October)

Our Primary Tour consists of three, thirty minute stations:

1. *Learning Center Talk and Kitchen Tour* -- At the Learning Center, you will learn about the many different kinds of apples that we grow at the Apple Works, as well as what it takes to grow them and get them ready to sell. You will get to see how we make pie crust, prepare the apples for baking, and how we bake our tasty treats in our large convection ovens.
2. *Guided Wagon Ride and Pick an Apple* -- On your Guided Wagon Ride, you will get to see all the apple trees, from our newly planted baby trees to some of our oldest apple trees that were planted when our orchard first began. Depending on the availability, one of our tractor drivers will teach you how to pick an apple to take home with you.
3. *Snack and Farm Animal Visit* -- For your snack, you will enjoy our homemade Apple Sauce Bars with caramel icing and a cup of our very own Apple Cider. We exclusively make our delicious Applesauce Bars for our field trips and our fresh Apple Cider is made from a well balanced mixture of our finest apples to give it a complex richness.
